

Group D: Documentation Functional Requirements

2.1: Visitors

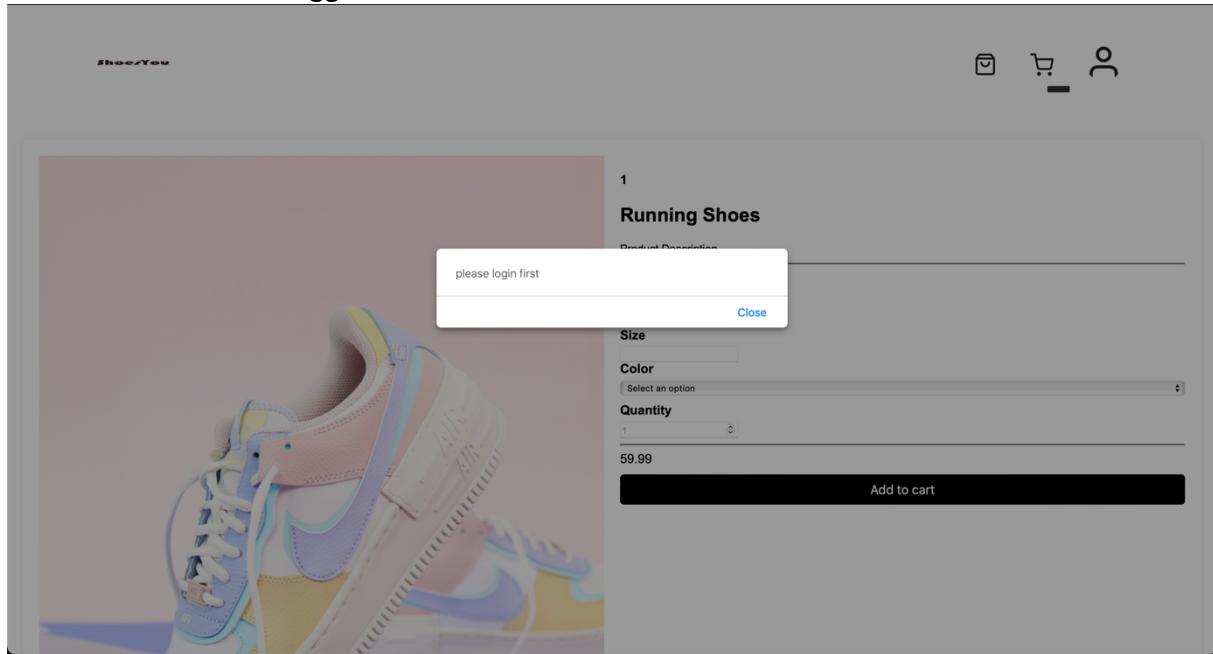

A visitor is allowed to browse through the categories, search for products and create a new account in the system. The visitors are NOT allowed to buy anything, put items in the wishlist, or become a seller.

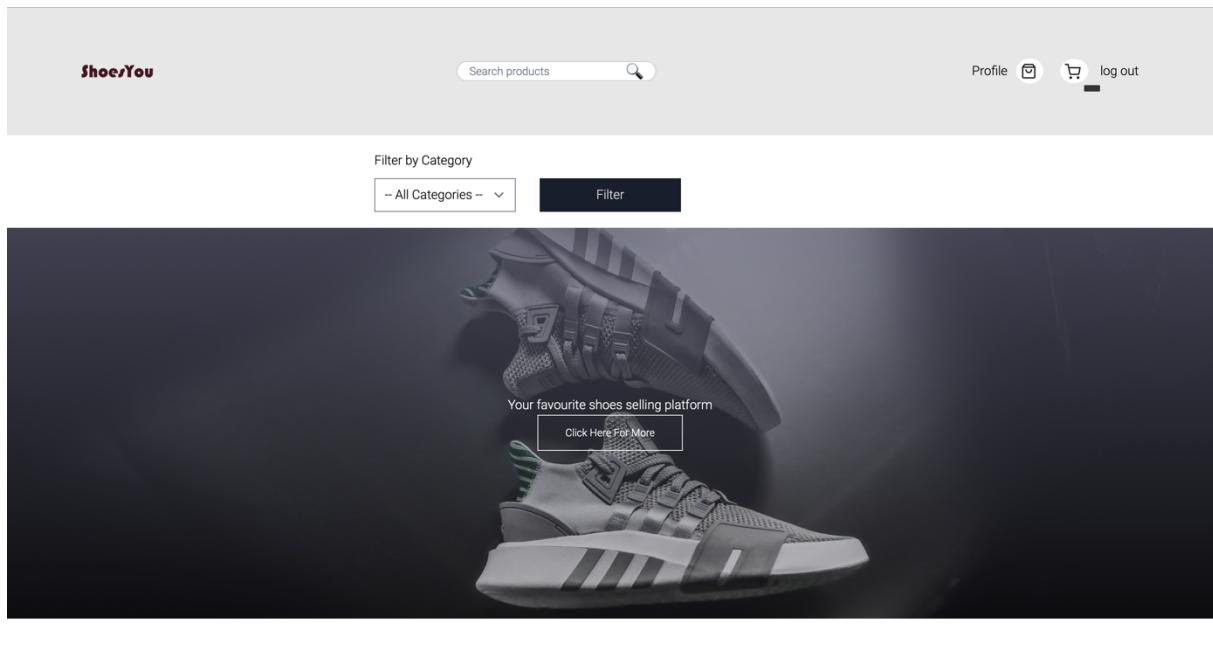

A visitor can navigate through the Login page and log in to their account. They can also create a new account if they don't have one with the help of the Register button.

When the user is not logged in:

2.2: Users

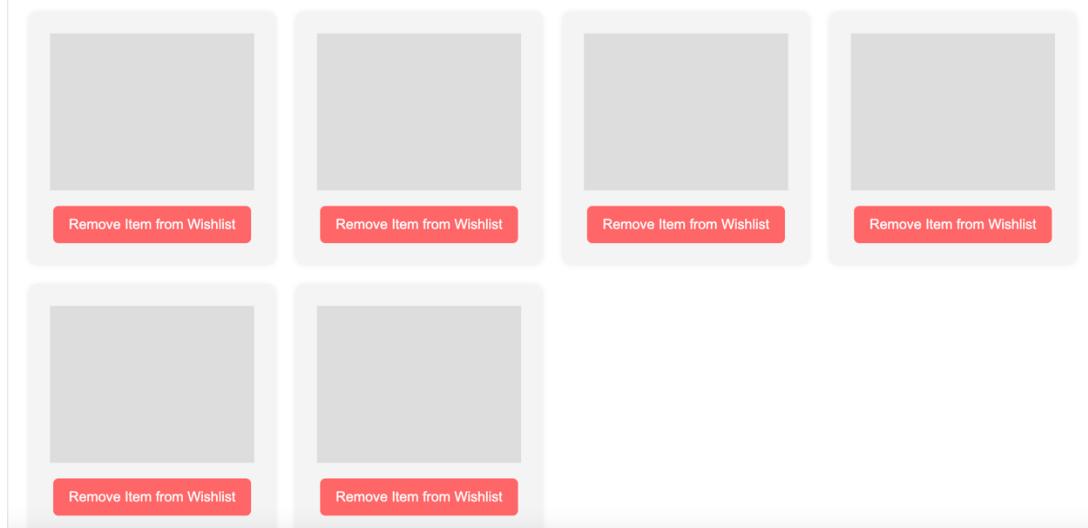

Once the user is logged in, they have the possibility to buy items, put them in the wishlist, change their account details and become a seller.
